MAIN TECHNICAL PARAMETERS

The above data tested in Airwheel Lab is for reference only, please subject to the actual data.

Size	1290mm × 550mm × 1100mm
Folding size	840mm × 470mm × 650mm
Item weight	~17kg
Max. load	100kg
Tire size	14 inch
Max. speed	≤ 20km/h
Charging voltage	AC 100~240V 50~60Hz
Max. Permissible Gradient	~15° (Riders weighing 60kg get up to 18°)
Battery capacity	214.6Wh
Charging time	~180min
Applicable temperature	-10°C ~40°C
USB output voltage/current	5V / 1.5A
Motor	36V, 230W, 380RPM brushless motor

SPECIFICATIONS

Folding Length (mm)	Folding Width (mm)	Folding Height (mm)	Tire size (inch)	Battery Length (mm)	Battery Width (mm)	Battery Height (mm)
840	470	650	14	182	104	89

ENJOY YOUR RIDING WITH **3 DIFFERENT MODES**

- Pedaling only without electric
- Power assisted while pedaling
- Electric drive only without pedaling
